# **SAFETY DATA SHEET**

Date of issue/Date of revision

Saudi Arabia

: 10.03 PPG

# SECTION 1: Identification of the substance/mixture and of the company/ undertaking

: 21 March 2024

Version

| 1.1 Product identifier  |   |
|---|---|
| Product name  | : SIGMAGLIDE 790 HARDENER   |
| Product code  | : 00188976  |
| Other means of identification   | on  |
| Not available.  |   |
| 1.2 Relevant identified uses  | of the substance or mixture and uses advised against              |
| Product use   | : Professional applications, Used by spraying.                    |
| Use of the substance/<br>mixture  | : Coating.  |
| Uses advised against  | : Product is not intended, labelled or packaged for consumer use. |
| 1.3 Details of the supplier of  | the safety data sheet   |
| Sigma Paint Saudi Arabia Ltd<br>PO Box 7509, Dammam 314<br>Saudi Arabia |   |
| Tel: 00966 138 47 31 00<br>Fax: 00966 138 47 17 34                      |   |
| e-mail address of person responsible for this SDS                       | : PS.ACEMEA@ppg.com   |
| 1.4 Emergency telephone   | : 00966 138473100 extn 1001                                       |

# **SECTION 2: Hazards identification**

#### 2.1 Classification of the substance or mixture Product definition : Mixture Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS] Acute Tox. 4, H302 Skin Corr. 1B, H314 Eye Dam. 1, H318 Skin Sens. 1, H317 Muta. 2, H341 Repr. 1B, H360FD STOT SE 2, H371 STOT RE 2, H373 Aquatic Chronic 2, H411 The product is classified as hazardous according to Regulation (EC) 1272/2008 as amended.

See Section 16 for the full text of the H statements declared above.

See Section 11 for more detailed information on health effects and symptoms.

#### 2.2 Label elements

number

| Code : 00188976<br>SIGMAGLIDE 790 HARDENE   | Date of issue/Date of revision : 21 March 2024  |
|---|---|
| SECTION 2: Hazards  |   |
| Hazard pictograms   |   |
|   |   |
| Signal word   | : Danger  |
| Hazard statements   | <ul> <li>Harmful if swallowed.</li> <li>Causes severe skin burns and eye damage.</li> <li>May cause an allergic skin reaction.</li> <li>Suspected of causing genetic defects.</li> <li>May damage fertility. May damage the unborn child.</li> <li>May cause damage to organs.</li> <li>May cause damage to organs through prolonged or repeated exposure.</li> <li>Toxic to aquatic life with long lasting effects.</li> </ul> |
| Precautionary statements  |   |
| Prevention  | : Wear protective gloves, protective clothing and eye or face protection. Avoid release to the environment. Do not breathe vapour.  |
| Response  | : Collect spillage. IF exposed or concerned: Get medical advice or attention.   |
| Storage   | : Not applicable.   |
| Disposal  | <ul> <li>Dispose of contents and container in accordance with all local, regional, national and<br/>international regulations.</li> <li>P280, P273, P260, P391, P308 + P313, P501</li> </ul>  |
| Hazardous ingredients   | : triacetoxyethylsilane<br>dibutyltin di(acetate)   |
| Supplemental label elements   | : Not applicable.   |
| Annex XVII - Restrictions<br>on the manufacture,<br>placing on the market and<br>use of certain dangerous<br>substances, mixtures and<br>articles | : Restricted to professional users.   |
| Special packaging requirer  | <u>nents</u>  |
| Containers to be fitted<br>with child-resistant<br>fastenings   | : Not applicable.   |
| Tactile warning of danger   | : Not applicable.   |
| 2.3 Other hazards   |   |
| Product meets the criteria for PBT or vPvB  | : This mixture does not contain any substances that are assessed to be a PBT or a vPvE  |
| Other hazards which do not result in classification   | : Causes digestive tract burns.   |

not result in classification

Code : 00188976

Date of issue/Date of revision

: 21 March 2024

SIGMAGLIDE 790 HARDENER

# **SECTION 3: Composition/information on ingredients**

#### 3.2 Mixtures

: Mixture

| Product/ingredient name                                 | Identifiers  | %           | Classification  | Specific Conc.<br>Limits, M-factors<br>and ATEs | Туре    |
|---|--|-------------|---|---|---------|
| triacetoxyethylsilane                                   | REACH #:<br>01-2119881778-15<br>EC: 241-677-4<br>CAS: 17689-77-9                       | ≥90         | Acute Tox. 4, H302<br>Skin Corr. 1B, H314<br>Eye Dam. 1, H318<br>EUH014   | ATE [Oral] = 1462 mg/<br>kg                     | [1]     |
| dibutyltin di(acetate)                                  | REACH #:<br>01-2119634587-29<br>EC: 213-928-8<br>CAS: 1067-33-0<br>Index: 050-033-00-X | ≥1.0 - ≤5.0 | Skin Corr. 1B, H314<br>Eye Dam. 1, H318<br>Skin Sens. 1B, H317<br>Muta. 2, H341<br>Repr. 1B, H360FD<br>STOT SE 1, H370<br>(thymus) (oral)<br>STOT RE 1, H372<br>(immune system)<br>Aquatic Acute 1, H400<br>Aquatic Chronic 1, H410 | M [Acute] = 1<br>M [Chronic] = 1                | [1] [2] |
| 1,1,3,3-Disiloxanetetrol,<br>1,3-diethyl-, tetraacetate | CAS: 122842-90-4   | ≥1.0 - ≤5.0 | Acute Tox. 4, H302<br>Skin Corr. 1B, H314<br>Eye Dam. 1, H318<br>See Section 16 for<br>the full text of the H<br>statements declared<br>above.  | ATE [Oral] = 500 mg/<br>kg                      | [1]     |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section.

Туре

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

Occupational exposure limits, if available, are listed in Section 8.

SUB codes represent substances without registered CAS Numbers.

# **SECTION 4: First aid measures**

#### 4.1 Description of first aid measures

| Eye contact                | : Check for and remove any contact lenses. Immediately flush eyes with running water for at least 15 minutes, keeping eyelids open. Seek immediate medical attention.   |
|----------------------------|---|
| Inhalation                 | : Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is<br>irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained<br>personnel.  |
| Skin contact               | <ul> <li>Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water<br/>or use recognised skin cleanser. Do NOT use solvents or thinners.</li> </ul>  |
| Ingestion                  | : If swallowed, seek medical advice immediately and show the container or label. Keep person warm and at rest. Do NOT induce vomiting.  |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |

**SECTION 4: First aid measures** 

| .2 Most important symp        | otoms and effects, both acute and delayed  |
|-------------------------------|--|
| Potential acute health e      | r <u>ffects</u>  |
| Eye contact                   | : Causes serious eye damage.   |
| Inhalation                    | : No known significant effects or critical hazards.  |
| Skin contact                  | : Causes severe burns. May cause damage to organs following a single exposure in contact with skin. May cause an allergic skin reaction.   |
| Ingestion                     | : Harmful if swallowed. Corrosive to the digestive tract. Causes burns. May cause damage to organs following a single exposure if swallowed.   |
| <u>Over-exposure signs/sy</u> | <u>/mptoms</u>   |
| Eye contact                   | : Adverse symptoms may include the following:<br>pain<br>watering<br>redness   |
| Inhalation                    | : Adverse symptoms may include the following:<br>reduced foetal weight<br>increase in foetal deaths<br>skeletal malformations  |
| Skin contact                  | : Adverse symptoms may include the following:<br>pain or irritation<br>redness<br>blistering may occur<br>reduced foetal weight<br>increase in foetal deaths<br>skeletal malformations |
| Ingestion                     | : Adverse symptoms may include the following:<br>stomach pains<br>reduced foetal weight<br>increase in foetal deaths<br>skeletal malformations   |

| no maloadon or any minoad |     |   |
|---------------------------|-----|---|
| Notes to physician        |     | reat symptomatically. Contact poison treatment specialist immediately if large uantities have been ingested or inhaled. |
| Specific treatments       | : N | lo specific treatment.  |

# SECTION 5: Firefighting measures

| 5.1 Extinguishing media               |   |
|---------------------------------------|---|
| Suitable extinguishing media          | : Use an extinguishing agent suitable for the surrounding fire.   |
| Unsuitable extinguishing media        | : None known.   |
| 5.2 Special hazards arising           | from the substance or mixture   |
| Hazards from the substance or mixture | : In a fire or if heated, a pressure increase will occur and the container may burst. This material is toxic to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain. |
| Hazardous combustion products         | : Decomposition products may include the following materials:<br>carbon oxides<br>metal oxide/oxides  |
|                                       |   |

| Code : 00188976         | Date of issue/Date of revision | : 21 March 2024 |
|-------------------------|--------------------------------|-----------------|
| SIGMAGLIDE 790 HARDENER |                                |                 |

## **SECTION 5: Firefighting measures**

| 5.3 Advice for firefighters                       |   |
|---|---|
| Special precautions for<br>fire-fighters          | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.   |
| Special protective<br>equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents. |

## **SECTION 6: Accidental release measures**

| 6.1 Personal precautions, pro   | tective equipment and emergency procedures  |
|---------------------------------|---|
| For non-emergency<br>personnel  | : No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilt material. Do not breathe vapour or mist.<br>Provide adequate ventilation. Wear appropriate respirator when ventilation is<br>inadequate. Put on appropriate personal protective equipment.  |
| For emergency responders        | : If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".   |
| 6.2 Environmental precautions   | : Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities. Collect spillage.  |
| 6.3 Methods and material for    | containment and cleaning up   |
| Small spill                     | : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.   |
| Large spill                     | : Stop leak if without risk. Move containers from spill area. Approach the release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spill product. |
| 6.4 Reference to other sections | <ul> <li>See Section 1 for emergency contact information.</li> <li>See Section 8 for information on appropriate personal protective equipment.</li> <li>See Section 13 for additional waste treatment information.</li> </ul>   |

#### **SECTION 7: Handling and storage**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 7.1 Precautions for safe handling

| exposure during pregnancy. Do not handle until all safety precautions have been read<br>and understood. Do not get in eyes or on skin or clothing. Do not breathe vapour or<br>mist. Do not ingest. Avoid release to the environment. If during normal use the<br>material presents a respiratory hazard, use only with adequate ventilation or wear<br>appropriate respirator. Keep in the original container or an approved alternative made<br>from a compatible material, kept tightly closed when not in use. Empty containers retain | Protective measures | and understood. Do not get in eyes or on skin or clothing. Do not breathe vapour or<br>mist. Do not ingest. Avoid release to the environment. If during normal use the<br>material presents a respiratory hazard, use only with adequate ventilation or wear<br>appropriate respirator. Keep in the original container or an approved alternative made |
|--|---------------------|--|
|--|---------------------|--|

| Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Commission Regulation (EU) |  |

## **SECTION 7: Handling and storage**

|  | product residue and can be hazardous. Do not reuse container.  |
|--|--|
| Advice on general occupational hygiene                                 | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.  |
| 7.2 Conditions for safe<br>storage, including any<br>incompatibilities | : Store between the following temperatures: 0 to 35°C (32 to 95°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use. |

#### 7.3 Specific end use(s)

See Section 1.2 for Identified uses.

## **SECTION 8: Exposure controls/personal protection**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 8.1 Control parameters

#### **Occupational exposure limits**

| Product/ingredier                 | Product/ingredient name  |   | Exposure limit values  |   |  |  |
|-----------------------------------|--|---|--|---|--|--|
| dibutyltin di(acetate)            |  | ACGIH TLV (United Sta<br>Sn] Absorbed through<br>STEL: 0.2 mg/m <sup>3</sup> , (as S<br>TWA: 0.1 mg/m <sup>3</sup> , (as S  | Sn) 15 minutes.  | mpounds as  |  |  |

| 8.2 Exposure controls             |  |   |  |   |  |  |
| Appropriate engineering controls  | local exhaust ver  |   | as, vapour or mist, use process<br>ng controls to keep worker exp<br>ended or statutory limits.  |   |  |  |
| Individual protection measur      | <u>res</u>   |   |  |   |  |  |
| Hygiene measures                  | eating, smoking a<br>Appropriate tech<br>Contaminated wo<br>contaminated clo   | s, forearms and face thoroughly after handling chemical products, before<br>king and using the lavatory and at the end of the working period.<br>techniques should be used to remove potentially contaminated clothing.<br>ed work clothing should not be allowed out of the workplace. Wash<br>ed clothing before reusing. Ensure that eyewash stations and safety<br>e close to the workstation location. |  |   |  |  |
| Eye/face protection               | : Chemical splash  | goggles and face shield.  |  |   |  |  |
|                                   |  | English (GB)  | Saudi Arabia   | 6/13  |  |  |

| Code       | : 00188976     | Date of issue/Date of revision | : 21 March 2024 |
|------------|----------------|--------------------------------|-----------------|
| SIGMAGLIDE | E 790 HARDENER |                                |                 |

| Skin protection                 |   |   |
|---------------------------------|---|---|
| Hand protection                 | : | Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. When prolonged or frequently repeated contact may occur, a glove with a protection class of 6 (breakthrough time greater than 480 minutes according to EN 374) is recommended. When only brief contact is expected, a glove with a protection class of 2 or higher (breakthrough time greater than 30 minutes according to EN 374) is recommended. The user must check that the final choice of type of glove selected for handling this product is the most appropriate and takes into account the particular conditions of use, as included in the user's risk assessment. |
| Gloves                          | 1 | nitrile neoprene  |
| Body protection                 | : | Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.   |
| Other skin protection           | : | Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.   |
| Respiratory protection          | : |   |
| Environmental exposure controls | : | Emissions from ventilation or work process equipment should be checked to ensure<br>they comply with the requirements of environmental protection legislation. In some<br>cases, fume scrubbers, filters or engineering modifications to the process equipment<br>will be necessary to reduce emissions to acceptable levels.   |

# **SECTION 9: Physical and chemical properties**

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

#### 9.1 Information on basic physical and chemical properties

| Appearance                                      |  |

**Partition coefficient: n-octanol/ :** Not applicable. water

#### Vapour pressure

**Evaporation rate** 

| Les and the second second | Vapou     | Vapour Pressure at 20°C Vapo |        | our pressure at 50°C |     |        |
|---------------------------|-----------|------------------------------|--------|----------------------|-----|--------|
| Ingredient name           | mm Hg     | kPa                          | Method | mm<br>Hg             | kPa | Method |
| triacetoxyethylsilane     | 0.7500615 | 0.1                          |        |                      |     |        |

| Relative density         | : 1.15  |
|--------------------------|---|
| Bulk density (g/cm³)     | : 1.18  |
| Explosive properties     | : The product itself is not explosive, but the formation of an explosible mixture of vapour or dust with air is possible. |
| Oxidising properties     | : Product does not present an oxidizing hazard.   |
| Particle characteristics |   |
| Median particle size     | : Not applicable.   |

#### 9.2 Other information

No additional information.

# **SECTION 10: Stability and reactivity**

| 10.1 Reactivity                          | : No specific test data related to reactivity available for this product or its ingredients.  |
|--|---|
| 10.2 Chemical stability                  | : The product is stable.  |
| 10.3 Possibility of hazardous reactions  | : Under normal conditions of storage and use, hazardous reactions will not occur.   |
| 10.4 Conditions to avoid                 | : When exposed to high temperatures may produce hazardous decomposition products.<br>Refer to protective measures listed in sections 7 and 8. |
| 10.5 Incompatible materials              | : Keep away from the following materials to prevent strong exothermic reactions: oxidising agents, strong alkalis, strong acids.              |
| 10.6 Hazardous<br>decomposition products | : Depending on conditions, decomposition products may include the following materials: carbon oxides metal oxide/oxides                       |

SIGMAGLIDE 790 HARDENER

**SECTION 11:** Toxicological information

# Sensitisation Conclusion/Summary Skin : There are no data available on the mixture itself. Respiratory : There are no data available on the mixture itself. Mutagenicity : There are no data available on the mixture itself. Conclusion/Summary : There are no data available on the mixture itself. Carcinogenicity : There are no data available on the mixture itself.

**Conclusion/Summary** : There are no data available on the mixture itself.

**Conclusion/Summary** : There are no data available on the mixture itself.

**Teratogenicity** 

**Reproductive toxicity** 

**Conclusion/Summary** : There are no data available on the mixture itself.

#### Specific target organ toxicity (single exposure)

| Product/ingredient name | Category   | Route of exposure | Target organs |
|-------------------------|------------|-------------------|---------------|
| dibutyltin di(acetate)  | Category 1 | oral              | thymus        |

#### Specific target organ toxicity (repeated exposure)

| Product/ingredient name | Category   | Route of exposure | Target organs |
|-------------------------|------------|-------------------|---------------|
| dibutyltin di(acetate)  | Category 1 | -                 | immune system |

#### **Aspiration hazard**

Not available.

| Information on likely | : Not available. |
|-----------------------|------------------|
| routes of exposure    |                  |

| <b>Potential</b> | acute | health | effects |
|------------------|-------|--------|---------|

| Inhalation          | : No known significant effects or critical hazards.  |
|---------------------|--|
| Ingestion           | <ul> <li>Harmful if swallowed. Corrosive to the digestive tract. Causes burns. May cause<br/>damage to organs following a single exposure if swallowed.</li> </ul>                     |
| Skin contact        | : Causes severe burns. May cause damage to organs following a single exposure in contact with skin. May cause an allergic skin reaction.   |
| Eye contact         | : Causes serious eye damage.   |
| Symptoms related to | the physical, chemical and toxicological characteristics   |
| Inhalation          | : Adverse symptoms may include the following:<br>reduced foetal weight<br>increase in foetal deaths<br>skeletal malformations  |
| Ingestion           | : Adverse symptoms may include the following:<br>stomach pains<br>reduced foetal weight<br>increase in foetal deaths<br>skeletal malformations   |
| Skin contact        | : Adverse symptoms may include the following:<br>pain or irritation<br>redness<br>blistering may occur<br>reduced foetal weight<br>increase in foetal deaths<br>skeletal malformations |

| SECTION 11: Toxicol            | gical information   |
| Eye contact                    | Adverse symptoms may include the following:<br>pain<br>watering<br>redness  |
| Delayed and immediate effe     | ts as well as chronic effects from short and long-term exposure   |
| <u>Short term exposure</u>     |   |
| Potential immediate<br>effects | Not available.  |
| Potential delayed effects      | Not available.  |
| Long term exposure             |   |
| Potential immediate effects    | Not available.  |
| Potential delayed effects      | : Not available.  |
| Potential chronic health effe  | <u>ts</u>   |
| Not available.                 |   |
| Conclusion/Summary             | Not available.  |
| General                        | <ul> <li>May cause damage to organs through prolonged or repeated exposure. Once<br/>sensitized, a severe allergic reaction may occur when subsequently exposed to very lo<br/>levels.</li> </ul> |
| Carcinogenicity                | : No known significant effects or critical hazards.   |
| Mutagenicity                   | : Suspected of causing genetic defects.   |
| Reproductive toxicity          | : May damage fertility. May damage the unborn child.  |
| Other information              | Not available.  |
| Causes digestive tract burns.  |   |
| 11.2 Information on other ha   | ards  |
| 11.2.1 Endocrine disruptin     | properties  |
| Not available.                 |   |
| 11.2.2 Other information       |   |
| Not available                  |   |

Not available.

# **SECTION 12: Ecological information**

#### 12.1 Toxicity

| Product/ingredient name | Result              | Species | Exposure |
|-------------------------|---------------------|---------|----------|
| dibutyltin di(acetate)  | Acute EC10 3.1 mg/l | Fish    | 72 hours |
|                         | Acute EC50 0.5 mg/l | Algae   | 72 hours |

**Conclusion/Summary** : There are no data available on the mixture itself.

#### 12.2 Persistence and degradability

**Conclusion/Summary** : There are no data available on the mixture itself.

| Product/ingredient name | Aquatic half-life | Photolysis | Biodegradability |
|-------------------------|-------------------|------------|------------------|
| dibutyltin di(acetate)  | -                 | -          | Not readily      |

#### 12.3 Bioaccumulative potential

Not available.

#### 12.4 Mobility in soil

| Code       | : 00188976   | Date of issue/Date of revision | : 21 March 2024 |
|------------|--------------|--------------------------------|-----------------|
| SIGMAGLIDE | 790 HARDENER |                                |                 |

#### **SECTION 12: Ecological information**

Soil/water partition coefficient (Koc) Mobility : Not available.

: Not available.

#### 12.5 Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

#### **12.6 Endocrine disrupting properties**

Not available.

#### **12.7 Other adverse effects**

No known significant effects or critical hazards.

## **SECTION 13: Disposal considerations**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 13.1 Waste treatment methods

| Product                |   |  |
|------------------------|---|--|
| Methods of disposal    | : The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. |  |
| Hazardous waste        | : Yes.  |  |
| European waste catalog | ue (EWC)  |  |
| Waste code             | Waste designation   |  |
| 08 01 11*              | waste paint and varnish containing organic solvents or other hazardous substances   |  |
| Packaging              |   |  |
| Methods of disposal    | <ul> <li>The generation of waste should be avoided or minimised wherever possible. Waste<br/>packaging should be recycled. Incineration or landfill should only be considered when<br/>recycling is not feasible.</li> </ul>  |  |
| Type of packaging      | European waste catalogue (EWC)  |  |
| Container              | 15 01 06 mixed packaging  |  |
| Special precautions    | <ul> <li>This material and its container must be disposed of in a safe way. Care should be<br/>taken when handling emptied containers that have not been cleaned or rinsed out.<br/>Empty containers or liners may retain some product residues. Avoid dispersal of spilt<br/>material and runoff and contact with soil, waterways, drains and sewers.</li> </ul>   |  |

# **SECTION 14: Transport information**

#### Additional information

| ADR/RID  | <ul> <li>The environmentally hazardous substance mark is not required when transported in sizes of ≤5 L or<br/>≤5 kg.</li> </ul>  |  |  |
|--|---|--|--|
| IMDG   | : The marine pollutant mark is not required when transported in sizes of $\leq 5$ L or $\leq 5$ kg.   |  |  |
| ΙΑΤΑ   |   |  |  |
| 14.6 Special p<br>user                         | <b>recautions for</b> : <b>Transport within user's premises:</b> always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage. |  |  |
| 14.7 Transpor<br>according to I<br>instruments |   |  |  |

# SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture <u>EU Regulation (EC) No. 1907/2006 (REACH)</u>

Annex XIV - List of substances subject to authorisation

<u>Annex XIV</u>

None of the components are listed.

Substances of very high concern

None of the components are listed.

Annex XVII - Restrictions : Restricted to professional users. on the manufacture,

placing on the market and use of certain

dangerous substances, mixtures and articles

Other national and international regulations.

**Explosive precursors** : Not applicable.

Ozone depleting substances (1005/2009/EU)

Not listed.
