# **SAFETY DATA SHEET**

Date of issue/Date of revision 26 April 2024

Version2.02

# Section 1. Identification

| Product code   | : 00444974   |
|--|--|
| Product name   | : SIGMADUR 550H (SIGMADUR 568) BASE L  |
| CAS number   | : Not applicable.  |
| EC number  | : Mixture.   |
| Product type   | : Liquid.  |
| Relevant identified uses                                   | of the substance or mixture and uses advised against   |
| Product use  | <ul> <li>Coating.<br/>Professional applications, Used by spraying.</li> </ul>  |
| Uses advised against                                       | : Product is not intended, labelled or packaged for consumer use.  |
| Supplier's details   | : PPG Yung Chi Coatings Co. Ltd<br>Lot 219, Amata Street, Long Binh IZ<br>Bien Hoa City, Dong Nai Province<br>Vietnam<br>Tel : +84 61 3936121/22 |
| Emergency telephone<br>number (with hours of<br>operation) | : CHEMTREC +(84)-444581938 (CCN 17704)   |

# Section 2. Hazards identification

| : FLAMMABLE LIQUIDS - Category 3  |
|---|
| ACUTE TOXICITY (dermal) - Category 5  |
| ACUTE TOXICITY (inhalation) - Category 4  |
| SKIN IRRITATION - Category 2  |
| SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Respiratory tract               |
| irritation) - Category 3  |
| AQUATIC TOXICITY (ACUTE) - Category 2   |
| AQUATIC TOXICITY (CHRONIC) - Category 3   |
| Percentage of the mixture consisting of ingredient(s) of unknown acute dermal     |
| toxicity: 16.4%   |
| Percentage of the mixture consisting of ingredient(s) of unknown acute inhalation |
| toxicity: 54.5%   |
| Percentage of the mixture consisting of ingredient(s) of unknown hazards to the   |
| aquatic environment: 51.4%  |
|   |
|   |
|   |
|   |
|   |
|   |
| <b>v v</b>  |
| : Warning   |
|   |
|   |

Product name SIGMADUR 550H (SIGMADUR 568) BASE L

### Section 2. Hazards identification

| Hazard statements                                   | : | Flammable liquid and vapor.<br>May be harmful in contact with skin.<br>Causes skin irritation.<br>Harmful if inhaled.<br>May cause respiratory irritation.<br>Toxic to aquatic life.<br>Harmful to aquatic life with long lasting effects.   |
|---|---|--|
| Precautionary statements                            |   |  |
| Prevention  | : | Wear protective gloves, protective clothing and eye or face protection. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Use only outdoors or in a well-ventilated area. Avoid release to the environment. Avoid breathing vapor. Wash thoroughly after handling.  |
| Response  | : | IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call<br>a POISON CENTER or doctor if you feel unwell. IF ON SKIN (or hair): Take off<br>immediately all contaminated clothing. Rinse skin with water. IF ON SKIN: Call a<br>POISON CENTER or doctor if you feel unwell. Wash with plenty of water. If skin<br>irritation occurs: Get medical advice or attention. |
| Storage   | : | Store locked up. Store in a well-ventilated place. Keep container tightly closed.  |
| Disposal  | : | Dispose of contents and container in accordance with all local, regional, national and international regulations.  |
| Routes of entry                                     | : | Not available.   |
| Other hazards which do not result in classification | : | Prolonged or repeated contact may dry skin and cause irritation.   |

# Section 3. Composition/information on ingredients

Substance/mixture

: Mixture

#### **CAS number/other identifiers**

| CAS number | : Not applicable. |
|------------|-------------------|
| EC number  | : Mixture.        |

| Ingredient name                                 | CAS number | Chemical formula      | %         |
|---|------------|-----------------------|-----------|
| 2-Propenoic acid, homopolymer                   | 9003-01-4  | (C3-H4-O2)x           | ≥25 - ≤38 |
| Talc , not containing asbestiform fibres        | 14807-96-6 | 3Mg-O.4Si-O2.<br>H2-O | ≥10 - ≤25 |
| barium sulfate                                  | 7727-43-7  | O4-S.Ba               | ≥10 - ≤24 |
| xylene  | 1330-20-7  | C8-H10                | ≤7.7      |
| ethylbenzene                                    | 100-41-4   | C8-H10                | ≤7.9      |
| n-butyl acetate                                 | 123-86-4   | C6-H12-O2             | ≤5        |
| Solvent naphtha (petroleum), light aromatic     | 64742-95-6 | C36H48                | ≤3.1      |
| trizinc bis(orthophosphate)                     | 7779-90-0  | H3-O4-P.3/2Zn         | ≤2        |
| 1,2,4-trimethylbenzene                          | 95-63-6    | C9-H12                | ≤1.8      |
| 2-methoxy-1-methylethyl acetate                 | 108-65-6   | C6-H12-O3             | ≤2.5      |
| bis(1,2,2,6,6-pentamethyl-4-piperidyl) sebacate | 41556-26-7 | C30H56N2O4            | <1        |

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

SUB codes represent substances without registered CAS Numbers.

Occupational exposure limits, if available, are listed in Section 8.

| Description of necessary fi | <u>'st aid measures</u>   |
|-----------------------------|---|
| Eye contact                 | : Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids apart for at least 10 minutes and seek immediate medical advice.   |
| Inhalation                  | : Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel.  |
| Skin contact                | : Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners.  |
| Ingestion                   | : If swallowed, seek medical advice immediately and show this container or label.<br>Keep person warm and at rest. Do NOT induce vomiting.  |
| Most important symptoms/    | effects, acute and delayed  |
| Potential acute health effe | <u>cts</u>  |
| Eye contact                 | : No known significant effects or critical hazards.   |
| Inhalation                  | : Harmful if inhaled. May cause respiratory irritation.   |
| Skin contact                | : May be harmful in contact with skin. Causes skin irritation. Defatting to the skin.   |
| Ingestion                   | : No known significant effects or critical hazards.   |
| Over-exposure signs/sym     | <u>otoms</u>  |
| Eye contact                 | : Adverse symptoms may include the following:<br>pain or irritation<br>watering<br>redness  |
| Inhalation                  | : Adverse symptoms may include the following:<br>respiratory tract irritation<br>coughing   |
| Skin contact                | : Adverse symptoms may include the following:<br>irritation<br>redness<br>dryness<br>cracking   |
| Ingestion                   | : No specific data.   |
| Indication of immediate me  | dical attention and special treatment needed, if necessary  |
| Notes to physician          | <ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large<br/>quantities have been ingested or inhaled.</li> </ul>   |
| Specific treatments         | : No specific treatment.  |
| Protection of first-aiders  | : No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |

See toxicological information (Section 11)

Date of issue 26 April 2024

Product name SIGMADUR 550H (SIGMADUR 568) BASE L

### Section 5. Fire-fighting measures

| Extinguishing media                            |  |
|--|--|
| Suitable extinguishing media                   | : Use dry chemical, CO <sub>2</sub> , water spray (fog) or foam.   |
| Unsuitable extinguishing media                 | : Do not use water jet.  |
| Specific hazards arising from the chemical     | : Flammable liquid and vapor. Runoff to sewer may create fire or explosion hazard.<br>In a fire or if heated, a pressure increase will occur and the container may burst, with<br>the risk of a subsequent explosion. This material is toxic to aquatic life. This<br>material is harmful to aquatic life with long lasting effects. Fire water contaminated<br>with this material must be contained and prevented from being discharged to any<br>waterway, sewer or drain. |
| Hazardous thermal decomposition products       | : Decomposition products may include the following materials:<br>carbon oxides<br>sulfur oxides<br>phosphorus oxides<br>metal oxide/oxides   |
| Special protective actions for fire-fighters   | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.   |
| Special protective equipment for fire-fighters | <ul> <li>Fire-fighters should wear appropriate protective equipment and self-contained<br/>breathing apparatus (SCBA) with a full face-piece operated in positive pressure<br/>mode.</li> </ul>  |

### Section 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

| For non-emergency<br>personnel | :  | No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Shut off all ignition sources.<br>No flares, smoking or flames in hazard area. Avoid breathing vapor or mist.<br>Provide adequate ventilation. Wear appropriate respirator when ventilation is<br>inadequate. Put on appropriate personal protective equipment. |
|--------------------------------|----|---|
| For emergency responders       | :  | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".   |
| Environmental precautions      | :  | Avoid dispersal of spilled material and runoff and contact with soil, waterways,<br>drains and sewers. Inform the relevant authorities if the product has caused<br>environmental pollution (sewers, waterways, soil or air). Water polluting material.<br>May be harmful to the environment if released in large quantities.   |
| Methods and materials for co   | nt | ainment and cleaning up   |
| Small spill                    | :  | Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble.   |

explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. Product name SIGMADUR 550H (SIGMADUR 568) BASE L

### Section 6. Accidental release measures

Large spill : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with noncombustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

### Section 7. Handling and storage

| Precautions for safe handling                                      |   |  |
|--|---|--|
| Protective measures  | : | Put on appropriate personal protective equipment (see Section 8). Do not ingest.<br>Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Avoid<br>release to the environment. Use only with adequate ventilation. Wear appropriate<br>respirator when ventilation is inadequate. Do not enter storage areas and confined<br>spaces unless adequately ventilated. Keep in the original container or an approved<br>alternative made from a compatible material, kept tightly closed when not in use.<br>Store and use away from heat, sparks, open flame or any other ignition source. Use<br>explosion-proof electrical (ventilating, lighting and material handling) equipment.<br>Use only non-sparking tools. Take precautionary measures against electrostatic<br>discharges. Empty containers retain product residue and can be hazardous. Do not<br>reuse container. |
| Advice on general<br>occupational hygiene                          | : | Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.  |
| Conditions for safe storage,<br>including any<br>incompatibilities | : | Store between the following temperatures: 0 to 35°C (32 to 95°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.  |

### Section 8. Exposure controls/personal protection

#### Control parameters

#### **Occupational exposure limits**

| Ingredient name                          | Exposure limits  |

### Section 8. Exposure controls/personal protection

| -                      |  |
|------------------------|--|
| Body protection        | : Personal protective equipment for the body should be selected based on the task<br>being performed and the risks involved and should be approved by a specialist<br>before handling this product. When there is a risk of ignition from static electricity,<br>wear anti-static protective clothing. For the greatest protection from static<br>discharges, clothing should include anti-static overalls, boots and gloves.          |
| Other skin protection  | <ul> <li>Appropriate footwear and any additional skin protection measures should be<br/>selected based on the task being performed and the risks involved and should be<br/>approved by a specialist before handling this product.</li> </ul>  |
| Respiratory protection | : Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. |

# Section 9. Physical and chemical properties

| <u>Appearance</u>                            |   |  |                        |
|--|---|--|------------------------|

| Auto-ignition temperature                    | : | Not available.                             |                        |
| Decomposition temperature                    | 1 | Not available.                             |                        |
| Viscosity                                    | 1 | Kinematic (40°C): >21 mm²/s                |                        |
|  |   |  |                        |

# Section 10. Stability and reactivity

| Reactivity                         | : | No specific test data related to reactivity available for this product or its ingredients. |
|------------------------------------|---|--|
| Chemical stability                 | : | The product is stable.   |
| Possibility of hazardous reactions | : | Under normal conditions of storage and use, hazardous reactions will not occur.            |

Product name SIGMADUR 550H (SIGMADUR 568) BASE L

Date of issue 26 April 2024

Version 2.02

## Section 10. Stability and reactivity

| Conditions to avoid              | : | When exposed to high temperatures may produce hazardous decomposition products.   |
|----------------------------------|---|---|
| Incompatible materials           | : | Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, strong acids.                        |
| Hazardous decomposition products | : | Depending on conditions, decomposition products may include the following materials: carbon oxides sulfur oxides phosphorus oxides metal oxide/oxides |

# Section 11. Toxicological information

### Information on toxicological effects

### Acute toxicity

|                                 | Species  | Dose  | Exposure   |

| Eye contact                                  | : Adverse symptoms may include the following:<br>pain or irritation<br>watering<br>redness |

Product name SIGMADUR 550H (SIGMADUR 568) BASE L

### Section 11. Toxicological information

| Inhalation   | : Adverse symptoms may include the following:<br>respiratory tract irritation<br>coughing     |
|--------------|---|
| Skin contact | : Adverse symptoms may include the following:<br>irritation<br>redness<br>dryness<br>cracking |
| Ingestion    | : No specific data.   |

### Delayed and immediate effects and also chronic effects from short and long term exposure

| <u>Short term exposure</u>     |  |
|--------------------------------|--|
| Potential immediate<br>effects | : There are no data available on the mixture itself.   |
| Potential delayed effects      | : There are no data available on the mixture itself.   |
| <u>Long term exposure</u>      |  |
| Potential immediate<br>effects | : There are no data available on the mixture itself.   |
| Potential delayed effects      | : There are no data available on the mixture itself.   |
| Potential chronic health eff   | ects   |
| General                        | : Prolonged or repeated contact can defat the skin and lead to irritation, cracking and/<br>or dermatitis. |
| Carcinogenicity                | : No known significant effects or critical hazards.  |
| Mutagenicity                   | : No known significant effects or critical hazards.  |
| Reproductive toxicity          | : No known significant effects or critical hazards.  |

### Numerical measures of toxicity

#### Acute toxicity estimates

| Route                        | ATE value     |
|------------------------------|---------------|
| Øral                         | 6751.28 mg/kg |
| Dermal                       | 4573.17 mg/kg |
| Inhalation (vapors)          | 45.03 mg/l    |
| Inhalation (dusts and mists) | 4.85 mg/l     |

### Other information

Prolonged or repeated contact may dry skin and cause irritation. Sanding and grinding dusts may be harmful if inhaled. Repeated exposure to high vapor concentrations may cause irritation of the respiratory system and permanent brain and nervous system damage. Inhalation of vapor/aerosol concentrations above the recommended exposure limits causes headaches, drowsiness and nausea and may lead to unconsciousness or death. Avoid contact with skin and clothing.

**Other adverse effects** : No known significant effects or critical hazards.

### Section 13. Disposal considerations

Disposal methods

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its

Product name SIGMADUR 550H (SIGMADUR 568) BASE L

### Section 13. Disposal considerations

container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.
