

“Which system or product is right for me?”

Factors in choosing the right products for a specific job can vary from the year and type of vehicle to the cost of material.

This handy guide offers three complete *OMNI* Refinish Systems. Use it as a reference in selecting the right products properly suited for the type of refinishing being done and your cost-performance criteria.

Most products from these systems may be combined with products from other categories, as long as the product data sheets show compatibility.

Performance and value from start to finish.

SYSTEM SELECTION GUIDE

GOOD

OMNI value-conscious system for general refinishing of older vehicles and used cars. It's the economical choice where overall cost may be the key factor.

Surface Cleaner

MX190 Cleaner

Primary use: to ensure a clean surface prior to sanding and also before applying any coatings.

Primer

MP170 Epoxy Primer

Primary use: bare metal adhesion and corrosion protection.

Epoxy primer is applied prior to primer surfacer for improved corrosion resistance.

Primer Surfacer

MP243 Polyester Primer

Primary use: high build and sandability.

MP281 Acrylic Surfacer

Primary use: fill and sandability.

Primer surfacers are designed to deliver good fill and easy sanding.

Primer Sealer

MP213 GP Sealer

Primary use: adhesion and topcoat holdout.

Designed to provide a uniform color, appearance and improved adhesion when applied over primer, or prepared OE or repaired panels prior to applying a topcoat.

Topcoats

MAE Acrylic Enamel with Hardener

Primary use: appearance.

MBC Acrylic Basecoat

Primarily use: appearance and color match.

Clearcoat

MC250 Urethane Clearcoat

Primary use: good gloss, ease of use and buffability.

BETTER

OMNI mid-tier range refinishing system for refinishing of newer vehicles or used cars. This system is an ideal choice when cost and a good finish are the factors in product selection.

Surface Cleaner

MX190 Cleaner

Primary use: to ensure a clean surface prior to sanding and also before applying any coatings.

Etch Primer

MP220 Chrome Free Etch Primer

Primary use: bare metal adhesion and corrosion protection.

MP220 is a chromate-free, two-component acid etch primer that provides excellent adhesion and corrosion resistance to properly prepared bare metals. Etch primer is applied prior to primer surfacer or urethane primer sealer.

Primer Surfacer

MP282 2K High-Build Primer Surfacer

Primary use: fill and sandability.

2K Primer Surfacer is a two-component, catalyzed urethane primer surfacer designed to deliver high build, fast dry and easy sanding with good holdout and durability.

Primer Sealer

MP170 Epoxy Primer

Primary use: adhesion and topcoat holdout.

Designed to improve topcoat holdout when applied over prepared OE or repaired panels prior to applying a topcoat.

Topcoats

MBC Acrylic Basecoat

Primary use: appearance and color match.

MTK Acrylic Urethane Single Stage

Primary use: appearance and color match.

Clearcoats

MC250 Urethane Clearcoat

Primary use: good gloss, ease of use and buffability.

MC270 4.2 VOC Production Clear

Primary use: quick air dry performance and appearance.

BEST

OMNI premium refinishing system for newer vehicles including passenger cars, trucks and SUV's. Performance attributes such as process speed and superior gloss are key factors.

Surface Cleaner

MX190 Cleaner

Primary use: to ensure a clean surface prior to sanding and also before applying any coatings.

Etch Primer

MP220 Chrome Free Etch Primer

Primary use: bare metal adhesion and corrosion protection.

MP220 is a chromate-free, two-component acid etch primer that provides excellent adhesion and corrosion resistance to properly prepared bare metals. Etch primer is applied prior to primer surfacer or urethane primer sealer.

Primer Surfacer

MP282 2K High Build Primer Surfacer

Primary use: fill, sandability and holdout.

2K Urethane Surfacer is a two-component, catalyzed urethane primer surfacer designed to deliver high build, fast dry and easy sanding with superior holdout and durability.

Primer Sealer

MP23X 2K Urethane Sealer

Primary use: adhesion and topcoat holdout.

2K Urethane Sealer is designed to improve topcoat holdout when applied over prepared OE or repaired panels prior to applying a topcoat. Available in white, gray and dark gray.

Topcoat

MBP OMNI Plus Acrylic Urethane Basecoat

Primary use: color match.

MBP is *OMNI's* premium basecoat, offering prime color match capability. Tri-coats are also available.

Clearcoats

MC161 High Solids Urethane Clear

Primary use: ease of use and appearance.

MC2800 EUROPLUS® Speed Clear

Primary use: ease of use, speed and durability.
