

MC730 2.1 VOC Production Clear

Bringing a new level of performance, productivity and value to the cost-conscious collision shop, MC730 2.1 VOC Production Clear is an economically priced clearcoat ideal for spot and panel repairs. As part of the OMNI™ LV refinish system, MC730 is easy to use and provides fast cycle times—including a short, low bake option and the ability to air dry and buff quickly.

MC730 also delivers outstanding flexibility. With a choice of three available hardeners, MC730 can adjust to production conditions such as the size of the job and/or working conditions.

Product Features:

- **Quick dry times—superb productivity**
- **Short, low bake option**
- **User-friendly**
- **Simple 4:1 mix ratio**

For more information regarding products, refer to the *OMNI* compliant brochure available through your PPG Distributor or Territory Manager.
