

Plasticiser

EU-47

D814

GLOBAL REFINISH
SYSTEM™

Product Description:

GLOBAL REFINISH SYSTEM™ D814 Plasticiser is an additive that gives flexibility to *Global Refinish System* clears and primer systems when used on plastics.

Preparation of Substrate:

- In all cases, wash all surfaces to be painted with soap and water, then apply the appropriate PPG substrate cleaner. Ensure that the substrate is thoroughly cleaned and dried both before and after application work.

- Clean plastic surfaces with appropriate plastics cleaner and prepare with appropriate primer.

- When adding D814 Plasticiser to recommended *Global Refinish System* products please refer to the specific EU product bulletin for properly application information.

D814

Technical Data:

Color:	Clear Liquid
Intended Use:	Flex Additive
VOC (Package):	5.06 lbs./ US Gal (607 g/L)
Weight Solids:	34.1%
Volume Solids:	29.9%

Health and Safety:

- The contents of this package may have to be blended with other components before the product can be used. Before opening the packages, be sure you understand the warning messages on the labels and SDS's of all the components, since the mixture will have the hazards of all of its parts.
- Improper handling and use, for example, poor spray technique, inadequate engineering controls and/or lack of proper Personal Protective Equipment (PPE), may result in hazardous conditions or injury.
- Follow spray equipment manufacturer's instructions to prevent personal injury or fire.
- Provide adequate ventilation for health and fire hazard control.
- Follow company policy, product SDS and respirator manufacturer's recommendations for selection and proper use of respiratory protection. Be sure employees are adequately trained on the safe use of respirators per company and regulatory requirements.
- Wear appropriate PPE such as eye and skin protection. In the event of injury, see first aid procedures on SDS.
- Always observe all applicable precautions and follow good safety and hygiene practices.

See Safety Data Sheet and Labels for additional safety information and handling instructions.

Important: The contents of this package must be blended with other components before the product can be used. Before opening the packages, be sure you understand the warning messages on the labels of all components since the mixture will have the hazards of all its parts. Improper spray technique may result in a hazardous condition. Follow spray equipment manufacturer's instructions to prevent personal injury or fire. Follow directions for respirator use. Wear eye and skin protection. Observe all applicable precautions.

EMERGENCY MEDICAL OR SPILL CONTROL INFORMATION (412) 434-4515; IN CANADA (514) 645-1320

Materials described are designed for application by professional, trained personnel using proper equipment and are not intended for sale to the public. Products mentioned may be hazardous and should only be used according to direction, while observing precautions and warning statements listed on label. Statements and methods described are based upon the best information and practices known to PPG Industries. Procedures for applications mentioned are suggestions only and are not to be construed as representations or warranties as to performance, results, or fitness for any intended use, nor does PPG Industries warrant freedom from patent infringement in the use of any formula or process set forth herein.
