## Fish-eye Preventer for 2K P273-1086

<i>Product</i>	<i>Description</i>
P273-1086	Fish-eye Preventer for 2K

### Product Description

P273-1086 is designed to aid in the elimination of fish-eyes resulting from contamination by silicone, oil and wax. This product should only be used with 2 pack clearcoats and single layer colours.

**NOTE :** P273-1086 must **NOT** be used in 2K Undercoats or 2K Basecoats.

*Innovating Repair Solutions*

## PROCESS

In the event of fish-eyes or silicone contamination in the first coat of application, add 5-10 grams P273-1086 to 1 litre of activated 2 pack clearcoat or single layer colour. Continue thinning, mixing and application as normal.

Adding this product before thinning will ensure that the maximum VOC for the product in use is not exceeded.

**NOTE: DO NOT EXCEED THE RECOMMENDED AMOUNT OF 5-10 GRAMS PER READY TO SPRAY LITRE OF PAINT.**

## VOC INFORMATION

This product falls outside of the scope of EU Directive 2004/42 and therefore does not have a VOC product category classification.

This product can be used by professional motor vehicle repairers.

**These products are for professional use only** and are not to be used for purposes other than those specified. The information on this TDS is based on present scientific and technical knowledge, and it is the responsibility of the user to take all necessary steps in order to ensure the suitability of the product for the intended purpose.
