## GREY

**Stopper 3300** is a nitrosynthetic putty displaying smoothness, easy sanding, good hold out and fast drying. Nitro putty is used to fill fine imperfections in existing finishes.

## SUBSTRATES

All the fillers in MaxMeyer Car Refinish range
Old finishes in sound condition, sanded.

**Important:** Do not apply over bare metal.

## PREPARATION

Clean surface with mild detergent and water (warm water recommended).
Sand old finishes with P320-400. Degrease with antisiliconic Degreaser 3600.
Product is ready for use.

## APPLICATION

2-3 coats
Suggested thickness 100-200 microns
Maximum thickness 250-300 microns

**Important:** To speed up drying, it is recommended to apply several thin applications rather than one single thick coat.
**AquaMax Precleaner 4501**

**Waterborne Degreaser**

AquaMax Precleaner 4501 is a waterborne product suitable for the easy removal of grease, oils, silicone, waxes, dirt and other contaminating agents from old paintwork, bare metal, plastics and any other paintable substrates.
