## Delfleet

October 2006 (November 2019 update) TDS: RLD54V

# **Product Information**

### **DELFLEET F393**

#### **PRODUCT**

Delfleet Chromate-Free Wash Primer F393

Delfleet Reactive Reducer F365

Delfleet Slow Thinner F371

Delfleet Thinner F372

Delfleet Fast Thinner F373

#### PRODUCT DRSCRIPTION

Delfleet Chromate-Free Wash Primer is a medium build wash etch which complies with current European VOC legislation.

It is designed to give good adhesion when used on new panels and to promote the adhesion of subsequent paint films.

It is equally suitable for use on small and large surfaces and may be used in a Wet-on-Wet system if required.

This product must always be catalysed with its own Reactive Reducer, F365, before use.

#### SUBSTRATE PRE-TREATMENT

	Prepare the substrate as follows:	SAND	CLEANING		
	New hot / cold rolled steel / old steel	Shot Blast	The substrate to be painted must be dry,clean,free of corrosion,grease & mould release agents.  Substrates need to be thoroughly		
	Old steel	P180-240 Dry			
	Zintec Galvanised Steel	P180-240 Dry P240-320 Dry	prepared using a combination of D845 Degreaser & D837 Spirit Wipe (or D8401 WB low VOC cleaner)		
	Sound paint finishes GRP	P180-240 Dry P320-P400 Dry	(* * * * * * * * * * * * * * * * * * *		
	Aluminium	SAND			
0		P280-320 Dry

	Recoat time at 20°C: Minimum 20 minutes Maximum 6 hours  Overcoat with: Any Delfleet Primer or Topcoat.							

#### PERFORMANCE AND LIMITATIONS

This product is designed for use as an adhesion promoter; Do not use as an isolator. Maximum dry film build should be  $25\mu m$ .

#### **EQUIPMENT CLEANING**

After use clean all equipment thoroughly with cleaning solvent or thinner.

The EU limit for this product (product category:IIB.c) in ready for use form is max. 780g/l of VOC.

The VOC content of this product in ready for use form is max. 780 g/l. Depending on the chosen mode of use, the actual ready to use VOC of this product may be lower than that specified by the EU Directive code.

#### **HEALTH AND SAFETY**
