Product Information

Equipment Cleaners

Envirobase Gun Cleaner – T497

PRODUCT DESCRIPTION

PPG equipment cleaners are designed to facilitate the cleaning of equipment used during the mixing and application of PPG products.

Equipment cleaners will easily remove paint and dirt on external spraygun surfaces.

USE

Thoroughly clean the spraygun with Guncleaner and dry with a clean cloth. It is recommended that the equipment is cleaned immediately after use to avoid the drying and formation of deposits that can prove difficult to remove, and which could compromise the efficiency of the spraygun, or other contaminated equipment.

DISPOSAL

Guncleaners and subsequent waste created should be disposed of properly and in accordance with local authority regulations. Under no circumstances should waterborne waste be disposed of into a local public sewer without prior written authorization from the local authority.

VOC INFORMATION

The EU limit value for this product (product category: IIB.a) in ready to use form is max. 850g/litre of VOC.

The VOC content of this product in ready to use form is max. 850g/litre.

HEALTH AND SAFETY

These products are for professional use only, and are not to be used for purposes other than those specified. The information on this TDS is based on present scientific and technical knowledge, and it is the responsibility of the user to take all necessary steps in order to ensure the suitability of the product for the intended purpose. For Health and Safety information please refer to the material Safety Data Sheet, also available at: http://www.ppg.com/PPG_MSDS
