SAFETY DATA SHEET

Date of issue : 8 November 2021 : 9

Version

Section 1. Identification

| Product code | : 458-6783/1L |
|--|---|
| Product name | : PRIMER SURFACER GROUNDCOAT GREY |
| Product type | : Liquid. |
| Recommended use and res | <u>strictions</u> |
| Use of the substance/ mixture | : Coating. |
| Uses advised against | : Not applicable. |
| Supplier's details | : PPG INDUSTRIES NEW ZEALAND LTD 5 MONAHAN ROAD, MT WELLINGTON, AUCKLAND www.ppgnz.co.nz Telephone Numbers: 09 573 1620, 0800 659378 021 940 920 (24 Hours) |
| Emergency telephone number (with hours of operation) | : New Zealand 0800 000 096 (24 hours) / Australia 1800 883 254 (24 hours) For international shipping emergencies: 1-412-391-1618 |
| e-mail address of person responsible for this SDS | : ehsnz@ppg.com |

Section 2. Hazards identification

| HSNO Classification | : FLAMMABLE LIQUIDS - Category 2 |
|---------------------|---|
| | ACUTE TOXICITY (oral) - Category 4 |
| | SKIN IRRITATION - Category 2 |
| | SERIOUS EYE DAMAGE - Category 1 |
| | SKIN SENSITISATION - Category 1 |
| | CARCINOGENICITY - Category 2 |
| | REPRODUCTIVE TOXICITY - Category 2 |
| | SPECIFIC TARGET ORGAN TOXICITY - SINGLE EXPOSURE - Category 2 |
| | SPECIFIC TARGET ORGAN TOXICITY - REPEATED EXPOSURE - Category 2 |
| | LONG-TERM (CHRONIC) AQUATIC HAZARD - Category 2 |
| Symbol | |
| GHS label elements | |
| | _ |
| Signal word | : Danger |
| | |

Product name PRIMER SURFACER GROUNDCOAT GREY

Section 2. Hazards identification

| Hazard statements | 1 | ▶ Fighly flammable liquid and vapour. |
|---|-----|--|
| | | Harmful if swallowed. |
| | | Causes skin irritation. |
| | | May cause an allergic skin reaction. |
| | | Causes serious eye damage. |
| | | Suspected of causing cancer. |
| | | Suspected of damaging fertility or the unborn child. |
| | | May cause damage to organs. |
| | | May cause damage to organs through prolonged or repeated exposure. |
| | | Toxic to aquatic life with long lasting effects. |
| | | Prolonged or repeated contact may dry skin and cause irritation. |
| Precautionary statements | | |
| Prevention | : | Do not handle until all safety precautions have been read and understood. Wear protective gloves, protective clothing and eye or face protection. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Avoid release to the environment. Do not breathe vapour. Wash thoroughly after handling. |
| Response | : | Collect spillage. IF exposed or concerned: Call a POISON CENTER or doctor. Take off contaminated clothing and wash it before reuse. IF ON SKIN: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice or attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor. |
| Storage | 1 | Not applicable. |
| Disposal | : | Dispose of contents and container in accordance with all local, regional, national and international regulations. |
| Other hazards which do not result in classification | : | Prolonged or repeated contact may dry skin and cause irritation. |
| This material is classified as ha | 172 | rdous according to criteria in the Hazardous Substances (Minimum Degrees of |

This material is classified as hazardous according to criteria in the Hazardous Substances (Minimum Degrees of Hazard) Notice 2017 and has been classified according to the Hazardous Substances (Classifications) Notice 2017.

This material is classified as DANGEROUS GOODS according to criteria in New Zealand Land Transport Rule: Dangerous Goods 2005.

Section 3. Composition/information on ingredients

Product code

CAS number/other identifiers

: 458-6783/1L

| Hazardous ingredients | % | CAS number |
|--|----------|------------|
| xylene | 10 - <30 | 1330-20-7 |
| Isopropyl alcohol | 1 - <10 | 67-63-0 |
| butan-1-ol | 1 - <10 | 71-36-3 |
| 2-methylpropan-1-ol | 1 - <10 | 78-83-1 |
| ethanol | 1 - <10 | 64-17-5 |
| Epoxy Resin (700 <mw<=1100)< td=""><td>1 - <10</td><td>25036-25-3</td></mw<=1100)<> | 1 - <10 | 25036-25-3 |
| trizinc bis(orthophosphate) | 1 - <10 | 7779-90-0 |
| ethylbenzene | 1 - <10 | 100-41-4 |
| 1-methoxy-2-propanol | 1 - <10 | 107-98-2 |
| zinc oxide | <1 | 1314-13-2 |

|----------------------|------|-------|-----------|-----|

Product name PRIMER SURFACER GROUNDCOAT GREY

Section 3. Composition/information on ingredients

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment or have an OEL and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

| Description of necessa | ary first aid measures |
|------------------------|--|
| Eye contact | Check for and remove any contact lenses. Immediately flush eyes with running water for at least 15 minutes, keeping eyelids open. Seek immediate medical attention. |
| Inhalation | Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. |
| Skin contact | : Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognised skin cleanser. Do NOT use solvents or thinners. |
| Ingestion | If swallowed, seek medical advice immediately and show the container or label. Keep person warm and at rest. Do NOT induce vomiting. |
| Most important sympton | oms/effects, acute and delayed |
| Potential acute health | <u>1 effects</u> |
| Eye contact | : Causes serious eye damage. |
| Inhalation | : No known significant effects or critical hazards. |
| Skin contact | : May cause damage to organs following a single exposure in contact with skin. Causes skin irritation. Defatting to the skin. May cause an allergic skin reaction. |
| Ingestion | Harmful if swallowed. May cause damage to organs following a single exposure if swallowed. |
| Over-exposure signs | /symptoms |
| Eyes | : Adverse symptoms may include the following: pain watering redness |
| Inhalation | : Adverse symptoms may include the following: reduced foetal weight increase in foetal deaths skeletal malformations |
| Skin | : Adverse symptoms may include the following: pain or irritation redness dryness cracking blistering may occur reduced foetal weight increase in foetal deaths skeletal malformations |
| Ingestion | : Adverse symptoms may include the following: stomach pains reduced foetal weight increase in foetal deaths skeletal malformations |
| indication of immediat | e medical attention and special treatment needed, if necessary |

New Zealand Page: 3/13

Date of issue 8 November 2021 Version 9

Product name PRIMER SURFACER GROUNDCOAT GREY

Section 4. First aid measures

| Specific treatments | : Not available. | |
|----------------------------|---|--|
| Notes to physician | Freat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. | |
| Protection of first-aiders | No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. | |

See toxicological information (Section 11)

Section 5. Firefighting measures

| Extinguishing media | | |
|--|---|---|
| Suitable | Use dry chemical, CO ₂ , water spray (fog) or foam. | |
| Not suitable | Do not use water jet. | |
| Specific hazards arising from the chemical | Fighly flammable liquid and vapour. Runoff to sewer may create fire or explosion hazard. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion. This material is toxic to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain. | |
| Hazardous thermal decomposition products | Decomposition products may include the following materials: carbon oxides phosphorus oxides halogenated compounds metal oxide/oxides | |
| Special precautions for fire- fighters | Promptly isolate the scene by removing all persons from the vicinity of the incident i there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool. | f |
| Special protective equipment for fire-fighters | Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. | |

Section 6. Accidental release measures

| Personal precautions, protective equipment and emergency procedures | : | Specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel". | |
|---|---|--|--|
| Environmental precautions | : | Noid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities. Collect spillage. | |
| Methods and material for containment and cleaning up | | | |
| Small spill | : | Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. | |

Product name PRIMER SURFACER GROUNDCOAT GREY

Section 6. Accidental release measures

| Large spill | : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach the release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spill product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |
|-------------|--|
| | |

Section 7. Handling and storage

| Precautions for safe handling | : Vut on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Avoid exposure - obtain special instructions before use. Avoid exposure during pregnancy. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not breathe vapour or mist. Do not ingest. Avoid release to the environment. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container. |
|--|--|
| Conditions for safe storage, including any incompatibilities | : Do not store above the following temperature: 50°C (122°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidising materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use. |

Section 8. Exposure controls/personal protection

Control parameters

| Ingredient name | Exposure limits | | |
|-------------------|---|--|--|
| xýlene | NZ HSWA 2015 (New Zealand, 11/2020). WES-TWA: 217 mg/m ³ 8 hours. WES-TWA: 50 ppm 8 hours. | | |
| Isopropyl alcohol | NZ HSWA 2015 (New Zealand, 11/2020). WES-STEL: 1230 mg/m ³ 15 minutes. WES-STEL: 500 ppm 15 minutes. WES-TWA: 983 mg/m ³ 8 hours. WES-TWA: 400 ppm 8 hours. | | |
| butan-1-ol | NZ HSWA 2015 (New Zealand, 11/2020). Absorbed through skin. WES-Ceiling: 150 mg/m ³ WES-Ceiling: 50 ppm | | |
| | New Zealand Page: 5/13 | | |

Product name PRIMER SURFACER GROUNDCOAT GREY

Section 8. Exposure controls/personal protection

| 2-methylpropan-1-ol | | NZ HSWA 2015 (New Zealand, 11/2020). |
|---------------------------------|-----|---|
| | | WES-TWA: 152 mg/m ³ 8 hours. |
| | | WES-TWA: 50 ppm 8 hours. |
| ethanol | | NZ HSWA 2015 (New Zealand, 11/2020). |
| | | WES-TWA: 1880 mg/m ³ 8 hours. |
| | | WES-TWA: 1000 ppm 8 hours. |
| ethylbenzene | | NZ HSWA 2015 (New Zealand, 11/2020). |
| | | WES-STEL: 543 mg/m ³ 15 minutes. |
| | | WES-STEL: 125 ppm 15 minutes. WES-TWA: 434 mg/m ³ 8 hours. |
| | | WES-TWA: 434 mg/m o hours. WES-TWA: 100 ppm 8 hours. |
| 1-methoxy-2-propanol | | NZ HSWA 2015 (New Zealand, 11/2020). |
| | | WES-STEL: 553 mg/m ³ 15 minutes. |
| | | WES-STEL: 150 ppm 15 minutes. |
| | | WES-TWA: 369 mg/m ³ 8 hours. |
| | | WES-TWA: 100 ppm 8 hours. |
| Recommended monitoring | | If this product contains ingredients with exposure limits, personal, workplace |
| procedures | | atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to appropriate monitoring standards. Reference to national guidance documents for methods for the determination of hazardous substances will also be required. |
| Appropriate engineering | 1 | Use only with adequate ventilation. Use process enclosures, local exhaust |
| controls | | ventilation or other engineering controls to keep worker exposure to airborne |
| | | contaminants below any recommended or statutory limits. The engineering controls |
| | | also need to keep gas, vapour or dust concentrations below any lower explosive |
| | | limits. Use explosion-proof ventilation equipment. |
| Environmental exposure controls | : | Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels. |
| Individual protection measur | 'es | |
| Hygiene measures | 1 | Wash hands, forearms and face thoroughly after handling chemical products, before |
| | | eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location. |
| Respiratory protection | 1 | Respirator selection must be based on known or anticipated exposure levels, the |
| | | hazards of the product and the safe working limits of the selected respirator. If |
| | | workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed |
| | | respirator complying with an approved standard if a risk assessment indicates this is |
| | | necessary. |
| Hand protection | ÷ | Chemical-resistant, impervious gloves complying with an approved standard should |
| | | be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. |
| | | |
| | | |

Date of issue 8 November 2021 Version 9

Product name PRIMER SURFACER GROUNDCOAT GREY

Section 8. Exposure controls/personal protection

| Gloves | |
|-----------------|--|
| Eye protection | |
| Skin protection | |

- : butyl rubber
 - : Chemical splash goggles and face shield.
- : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Section 9. Physical and chemical properties

| <u>Appearance</u> | | |
|--|---|---|
| Physical state | 1 | Liquid. |
| Colour | 1 | Grey. |
| Odour | 1 | Not available. |
| Odour threshold | : | Not available. |
| рН | : | Not applicable. |
| Melting point | : | Not available. |
| Boiling point | : | 78°C (172.4°F) |
| Flash point | : | Closed cup: 13°C (55.4°F) |
| Flammability (solid, gas) | : | Not available. |
| Lower and upper explosive (flammable) limits | : | Not available. |
| Vapour pressure | : | Not available. |
| Relative density | : | 1.17 |
| Bulk Density (g/cm³) | : | 1.201 |
| Solubility | : | Insoluble in the following materials: cold water. |
| Partition coefficient: n- octanol/water | 1 | Not applicable. |
| Auto-ignition temperature | : | Not available. |
| Decomposition temperature | : | Not available. |
| Viscosity | : | Kinematic (40°C (104°F)): >21 mm²/s (>21 cSt) |
| | | |

Section 10. Stability and reactivity

| Stability | : Stable under recommended storage and handling conditions (see Section 7). |
|------------------------------------|--|
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur. |
| Conditions to avoid | : Avoid all possible sources of ignition (spark or flame). Do not pressurise, cut, weld, braze, solder, drill, grind or expose containers to heat or sources of ignition. |
| Incompatible materials | : Reactive or incompatible with the following materials: oxidising materials strong acids strong alkalis |
| Hazardous decomposition products | Depending on conditions, decomposition products may include the following materials: carbon oxides phosphorus oxides halogenated compounds metal oxide/ oxides |
| Hazardous polymerisation | : Under normal conditions of storage and use, hazardous polymerisation will not occur. |

Product name PRIMER SURFACER GROUNDCOAT GREY

Section 11. Toxicological information

Information on likely routes of exposure

| internation on interj re | |
|--------------------------|---|
| Inhalation | : No known significant effects or critical hazards. |
| Ingestion | : Farmful if swallowed. May cause damage to organs following a single exposure if swallowed. |
| Skin contact | : May cause damage to organs following a single exposure in contact with skin. Causes skin irritation. Defatting to the skin. May cause an allergic skin reaction. |
| Eye contact | : Causes serious eye damage. |
| Symptoms related to th | e physical, chemical and toxicological characteristics |
| Inhalation | : Adverse symptoms may include the following: reduced foetal weight increase in foetal deaths skeletal malformations |
| Ingestion | : Adverse symptoms may include the following: stomach pains reduced foetal weight increase in foetal deaths skeletal malformations |
| Skin contact | : Adverse symptoms may include the following: pain or irritation redness dryness cracking blistering may occur reduced foetal weight increase in foetal deaths skeletal malformations |
| Eye contact | : Adverse symptoms may include the following: pain watering redness |

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Acute toxicity

| Product/ingredient name | Result | Species | Dose | Exposure |
|--|------------------------|---------|--------------------------|-------------|

Section 11. Toxicological information

Reproductive toxicity

Conclusion/Summary

: There are no data available on the mixture itself.

Specific target organ toxicity

| Name | | Route of exposure | Target organs |
|--|------------|----------------------|---------------|
| x ylene | Category 2 | - | - |
| Epoxy Resin (700 <mw<=1100)< td=""><td>Category 2</td><td>dermal</td><td>-</td></mw<=1100)<> | Category 2 | dermal | - |
| ethylbenzene | Category 2 | inhalation | - |

Aspiration hazard

Not available.

Numerical measures of toxicity

Acute toxicity estimates

| Route | ATE value |
|----------------------|---------------|
| Øral | 1998.97 mg/kg |
| Dermal | 7527.09 mg/kg |
| Inhalation (vapours) | 440.05 mg/l |

Other information

Prolonged or repeated contact may dry skin and cause irritation. Sanding and grinding dusts may be harmful if inhaled. Repeated exposure to high vapor concentrations may cause irritation of the respiratory system and permanent brain and nervous system damage. Inhalation of vapour/aerosol concentrations above the recommended exposure limits causes headaches, drowsiness and nausea and may lead to unconsciousness or death. Avoid contact with skin and clothing.

Section 12. Ecological information

Ecotoxicity

: This material is toxic to aquatic life with long lasting effects.

: No known significant effects or critical hazards.

Do not allow to enter drains or watercourses.

Section 13. Disposal considerations

Disposal methods

: The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and nonrecyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapour from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

Not suitable: : Do not allow to enter drains or watercourses.

The classification of the product may meet the criteria for a hazardous waste. Disposal should be in accordance with applicable regional, national and local laws and regulations. Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees. Section 6. Accidental release measures
