**DESCRIPTION**

**SPRED COMPLETE™** Exterior Latex Semi-Gloss House Paint is our best 100% acrylic latex paint + primer. **SPRED COMPLETE** paint provides a stylish, semi-gloss appearance to exterior trim. It can be used on plywood, T-1-11 siding, clapboard, hardboard, shakes, shingles, masonry, cement board, and aluminum siding. May be applied at temperatures as low as 35º F. May also be used over previously painted surfaces.

**FEATURES**

- Our best quality product
- Resists peeling, blistering and flaking
- Provides a mildew resistant coating
- Durable and tough semi-gloss finish
- Excellent adhesion
- Quick drying and recoat
- Easy application
- Low odor

**COMPOSITION**

- Acrylic Resin
- Titanium Dioxide and Extender Pigments
- Not manufactured with lead or mercury containing materials.

**SPECIFICATION DATA**

**Color:**
White, custom & ready-mix colors
Tint the appropriate base with universal colorants

**Finish: Semi-Gloss**
Gloss - 20 - 35 units @ 60º

**Clean-up Solvent:**
Soap & water

**Density:**
10.2 lbs/gal (1.22 kg/L)

**VOC:**
50 g/L (0.42 lbs/gal) maximum
Refer to MSDS for regulatory VOC content of complete product line

**Solids:**
Volume - 35 +/- 1%
Weight - 46 +/- 1%

**Practical Coverage:**
Apply at 200-400 sq ft/gal (5-10 m²/L).
Actual coverage may vary depending on substrate and application method.

**Recommended Film Thickness:**
4.0 - 8.0 mils wet
1.4 - 2.8 mils dry

**Flash Point:**
None

**Dry Time:**
77°F (25°C) & 50% RH
To touch - 30 - 60 minutes
To recoat - 2 - 4 hours

**Shelf Life:**
1 year minimum - unopened

Read Label and Material Safety Data Sheet Prior to Use. See other cautions on last page. DSF1-0690
SURFACE PREPARATION

GENERAL SURFACE PREPARATION: All surfaces must be sound, dry, clean and free of oil, grease, dirt, rust, mildew, form release agents, curing compounds, loose and flaking paint and other foreign substances. Glossy surfaces must be dulled by sanding to ensure proper adhesion. Remove sanding dust. Fill all cracks and nail holes with spackle and spot prime with this product. For best results, prime heavily stained areas or watermarks with a stain blocking primer.

NEW SURFACES: Wood - Countersink nails, spot prime nails and pine knots with this product. Prime entire surface with this product. Prime badly weathered wood and bleeding wood such as redwood or cedar with an alkyd primer. Caulk with an acrylic caulk. Preprimed and Unprimed Hardboard - Prime entire surface and all edges with this product. Caulk with an acrylic caulk. Concrete and Masonry - Cure at least 30 days before painting. pH must be 10.0 or lower. Roughen slick poured or precast concrete and remove sealers by chemical cleaning or abrasive method such as sandsweeping. Rinse thoroughly with water and allow to dry. Remove loose aggregate. Prime concrete with this product, a latex primer or a masonry bonding primer. Fill concrete block with a latex block filler. Preprimed and Unprimed Fiber Cement Board - Prime entire surface and all edges with this product. Caulk with an acrylic caulk. Steel, Galvanized Metal and Aluminum - Prime with the appropriate waterborne metal primer or solventborne metal primer.

PREVIOUSLY PAINTED SURFACES: Wash to remove contaminants. Rinse thoroughly with water and allow to dry. Dull glossy areas by light sanding. Remove sanding dust. Remove loose paint.

DIRECTIONS FOR USE

TINTING: Tint the appropriate base with DRAMATONE™ colorants. Before applying this paint, apply a test sample to check color.

SPREADING RATE: Apply at 200-400 sq ft/gal (5-10 m²/L). Actual coverage may vary depending on substrate and application method. Certain colors such as yellow, orange and pink may require multiple coats.

APPLICATION: Mix thoroughly and STIR FREQUENTLY WHILE USING. May be applied by brush, roller or airless spray. No thinning required. For airless spray application, use a .015"-.019" tip at 2000 psi, adjust pressure as needed. Backroll after spraying. Always keep a wet edge to avoid lap marks. On horizontal siding, paint several quarters of can is used, refill from the next thoroughly mixed can. Two coats minimum are required for new and uncoated surfaces. When over previously painted surfaces, some colors may require more than one coat. An additional coat may be necessary for dramatic color changes, dark colors or over rough surfaces for optimal appearance and hide. Establish that air, surface and material temperatures are above 35°F (2°C) and at least 5°F above the dew point prior to painting. Do not apply at temperatures below 35°F or when temperatures are expected to drop below 35°F within 48 hours of application. Do not apply if rain or snow is expected within 48 hours. On large expanses of metal, temperatures must be 50°F (10°C) or higher. Check temperature requirements on any accompanying primer used.

DRYING TIME: At 77°F (25°C) and 50% R.H., dries to touch in 30-60 minutes and to recoat in two to four hours. At 35°F (2°C), dries to touch in three to six hours and to recoat in 24 hours. High humidity, thick films, poor ventilation or dark colors will increase these times.

CLEAN-UP: Clean hands and tools immediately with warm, soapy water. Clean spills right away with a damp cloth.

PRECAUTIONS

WARNING! HARMFUL OR FATAL IF SWALLOWED. ASPIRATION HAZARD - CAN ENTER LUNGS AND CAUSE DAMAGE. CAUSES EYE, SKIN AND RESPIRATORY TRACT IRRITATION. WHEN TINTED, CONTAINS ETHYLENE GLYCOL WHICH CAN CAUSE SEVERE KIDNEY DAMAGE. WHEN INGESTED AND HAS BEEN SHOWN TO CAUSE BIRTH DEFECTS IN LABORATORY ANIMALS. USE ONLY WITH ADEQUATE VENTILATION. KEEP OUT OF THE REACH OF CHILDREN. For emergency information call (800) 545-2643. Note: These warnings encompass the product series. Prior to use, read and follow product-specific MSDS and label information. If sanding, wear a dust mask to avoid breathing of sanding dust. Do not breathe vapors or spray mist. Ensure fresh air entry during application and drying. Avoid contact with eyes and skin. If you experience eye watering, headaches, or dizziness, leave the area. If properly used, a respirator may offer additional protection. Obtain professional advice before using. Close container after each use. FIRST AID: For skin contact, wash thoroughly with soap and water. If any product remains, gently rub with petroleum jelly, vegetable or mineral/baby oil then wash again with soap and water. Repeat as needed. Remove contaminated clothing. For eye contact, flush immediately with plenty of water for at least 15 minutes. Get medical attention. If swallowed, get medical attention immediately. If inhalation causes discomfort, remove to fresh air. If discomfort persists or breathing difficulty occurs, get medical attention. KEEP FROM FREEZING.

SHIPPING

FREIGHT CLASSIFICATION: Paint, Freezable

PACKAGING:
4 quart (0.9168 L)
1 gallon (3.785 L)
5 gallons (18.925 L)

FLASH POINT: None
