DEFT® Clear Wood Finish Waterborne is an interior self cross-linking acrylic that embodies the quality of the Clear Wood Finish Brushing Lacquer in a water based formula. Today’s professionals and DIYers alike continue to appreciate the ease of use, excellent durability and mar resistance. Clear Wood Finish Waterborne is ideal for stained or bare wood surfaces including furniture, doors, cabinets, trim, paneling and molding.

**Proven Durability**
- Self-leveling formula for easy application
- Resists abrasion and marring
- Crystal clear finish
- Enriches finished or unfinished wood
- Resists common household chemicals

**Plenty of Uses**
*Deft* Clear Wood Finish Waterborne seals, finishes and provides a rich luster to many interior wood surfaces (except floors). It's ideal for:
- Doors
- Furniture
- Cabinets
- Paneling
- Trim
- Use on Rosewoods and other exotic hardwoods

**Conformance Standard**
VOC compliant in all regulated areas

*Product data calculated on DFT107

| **WEIGHT/GALLON:** | 8.5 – 8.7 |
| **VISCOITY® @77°F (25°C):** | 56-60 KU (Stormer Viscometer) |
| **FLASH POINT:** | 212°F (100˚C) |
| **COVERAGE:** | Up to 400 sq.ft./gal; (37.2 sq.m/3.78 L) depending on surface texture and porosity |
| Wet Film Thickness: | 4.0 – 5.0 mils |
| Wet Microns: | 101.6 – 127.0 |
| Dry Film Thickness: | 1.1 – 1.4 mils |
| Dry Microns: | 27.94 – 35.56 |

Coverage figures do not include loss due to surface irregularities and porosity or material loss due to application method or mixing.

**DRYING TIME:** Dry time @ 77°F (25˚C); 50% relative humidity.
- To Touch: 30 minutes
- Tack-Free: 60 minutes
- To Recoat: 2 hours

*Patented Fanspray™ Aerosol nozzle rotates to create a more precise vertical or horizontal fan spray pattern; allows for better control, less overspray and more even coverage.

**CLEANUP:** Clean all brushes and applicators with soap and water.

**DISPOSAL:** Contact your local environmental regulatory agency for guidance on disposal on unused product. Do not pour down a drain or storm sewer.

†Patented Fanspray™ Aerosol nozzle rotates to create a more precise vertical or horizontal fan spray pattern; allows for better control, less overspray and more even coverage.

Clear Wood Finish Interior Waterborne Acrylic

Application Information
Stir thoroughly before using. Do not shake. USE WITH ADEQUATE VENTILATION. KEEP OUT OF REACH OF CHILDREN. Read all label and Material Safety Data Sheets (MSDS) information prior to use. MSDS are available through our website or by calling 1-800-441-9695.

Application Equipment: Apply with a brush, paint pad, aerosol or by spray equipment; Airless, HVLP, Conventional. No thinning is needed. For aerosols, please refer to the product label or MSDS for safety and detailed application instructions.

Application Method: Always apply with the grain of the wood using a smooth, even stroke. This product may cause some grain raise. Light sanding with fine sandpaper will remove swollen wood fibers. For aerosols, please refer to the product label or MSDS for safety and detailed application instructions.

General Surface Preparation
Surface must be clean and dry. Remove all loose and peeling paint, dirt, grease and any other surface contaminants.

WARNING! If you scrape, sand, or remove old paint, you may release lead dust or fumes. LEAD IS TOXIC. EXPOSURE TO LEAD DUST OR FUMES CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a properly fitted NIOSH-approved respirator and prevent skin contact to control lead exposure. Clean up carefully with a HEPA vacuum and a wet mop. Before you start, find out how to protect yourself and your family by contacting the USEPA National Lead Information Hotline at 1-800-424-LEAD or log on to www.epa.gov/lead. In Canada contact a regional Health Canada office. Follow these instructions to control exposure to other hazardous substances that may be released during surface preparation.

BARE WOOD: Sand with 180 to 220 grit sandpaper along the wood grain until smooth. Do not use steel wool. Remove all dust.

Deft Clear Wood Finish Waterborne can be applied direct to wood or to enhance the color of the wood, use Deft Interior Oil Based or Water Based stains.

PREVIOUSLY COATED WOOD: If the clean surface is in good condition, sand with 180 – 220 grit sandpaper. Do not use steel wool. Remove all dust. Test in a small area to ensure proper adhesion. If the finish is damaged or deteriorated, complete removal of the finish is recommended.

RECOAT: For adequate protection two or more coats are required. Sand with 180 to 220 grit sandpaper along the wood grain until smooth. Do not use steel wool. Remove dust.

Limitations of Use
Do not apply when the air, coating or surface temperature is below 50˚F (10˚C).

These products are not intended for immersion service or other extreme conditions. Not recommended in situations characterized by high heat or presence of corrosive chemicals.

Do not apply over sanding sealers which contain zinc stearate.

Not recommended for floors.

PROTECT FROM FREEZING.
