DEFT® Interior Polyurethane Water Based Acrylic is an interior water based hybrid coating that provides professional results on a wide variety of wood surfaces. This finish is a clear finish that provides hardness and excellent durability. Deft Interior Polyurethane Water Based Acrylic is ideal for stained or bare wood surfaces including furniture, floors, cabinets, doors, windows, trim, paneling and molding.

Proven Durability
• Hard, durable finish
• Resists abrasion and marring
• Fast dry
• Resists alcohol and common household chemicals

Plenty of Uses
Deft Interior Polyurethane Water Based Acrylic provides durability and protection to a wide variety of interior surfaces. It’s ideal for:
• Floors
• Doors
• Furniture
• Cabinets
• Trim

Conformance Standard
VOC compliant in all regulated areas

*Product data calculated on DFT157

| WEIGHT/GALLON:      | 8.4 – 8.6                                |
| VISCOSITY* @77°F (25°C): | 52-56 KU (Stormer Viscometer) |
| FLASH POINT:        | 157°F (69.44°C)                          |
| COVERAGE:           | Up to 500 sq.ft./gal; (46.5 sq.m/3.78L) depending on surface texture and porosity |
| Wet Film Thickness: | 3.0 mils                                 |
| Wet Microns:        | 76.2                                     |
| Dry Film Thickness: | 0.8                                      |
| Dry Microns:        | 20.32                                    |

Coverage figures do not include loss due to surface irregularities and porosity or material loss due to application method or mixing.

Drying Time: Dry time @ 77°F (25°C); 50% relative humidity.

To Touch: 30 minutes
Tack-Free: 90 minutes
To Recoat: 2 hours

Drying times listed may vary depending on temperature, humidity, film build, color and air movement.

Clean all brushes and applicators with soap and water.

DISPOSAL: Contact your local environmental regulatory agency for guidance on disposal on unused product. Do not pour down a drain or storm sewer.
**Application Information**
Stir thoroughly before using. Do not shake. **USE WITH ADEQUATE VENTILATION. KEEP OUT OF REACH OF CHILDREN.** Read all label and Material Safety Data Sheets (MSDS) information prior to use. MSDS are available through our website or by calling 1-800-441-9695.

**Application Equipment:** Apply with a brush, paint pad or by spray equipment; Airless, HVLP, Conventional. No thinning is needed.

**Application Method:** Always apply with the grain of the wood using a smooth, even stroke.

This product may cause some grain raise. Light sanding with fine sandpaper will remove swollen wood fibers.

**General Surface Preparation**
Surface must be clean and dry. Remove all loose and peeling paint, dirt, grease and any other surface contaminants.

**WARNING!** If you scrape, sand, or remove old paint, you may release lead dust or fumes. **LEAD IS TOXIC. EXPOSURE TO LEAD DUST OR FUMES CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE.** Wear a properly fitted NIOSH-approved respirator and prevent skin contact to control lead exposure. Clean up carefully with a HEPA vacuum and a wet mop. Before you start, find out how to protect yourself and your family by contacting the USEPA National Lead Information Hotline at 1-800-424-LEAD (5323) or log on to www.epa.gov/lead. In Canada contact a regional Health Canada office. Follow these instructions to control exposure to other hazardous substances that may be released during surface preparation.

**Limitations of Use**
Do not apply when the air, coating or surface temperature is below 50˚F (10˚C).

These products are not intended for immersion service or other extreme conditions. Not recommended in situations characterized by high heat or presence of corrosive chemicals.

Do not attempt to use on prewaxed wood flooring. Follow flooring manufacturer’s coating recommendations.

Do not apply over sanding sealers which contain zinc stearate.

Do not use over white or light colored stain and paint surfaces.

**PROTECT FROM FREEZING.**
