

Highlights

PPG SilverSan™ antibacterial-protected powder coatings are specially formulated with silver* ionic technology. SilverSan powder coating slowly releases silver ions, which are known to inhibit the growth of bacteria on powder-coated surfaces.

In research and development since 2001 – and a proven product in the marketplace since 2007 – SilverSan powder coating with silver ionic technology is engineered for use on fitness equipment, metal furniture, home appliances, restroom accessories, air conditioning /air vents, building materials, and laboratory equipment.

*Silver is a registered pesticide with the U.S. Environmental Protection Agency (EPA), which states that pesticides are used to prevent, destroy, repel or mitigate any pest ranging from insects and animals and weeds to microorganisms such as fundi, bacteria and viruses.

Antibacterial is limited to the treated surface and does not protect against disease-causing bacteria. The use of these products does not protect users of any such treated article or others against foodborne or disease-causing bacteria, viruses, germs or other disease-causing organisms.

Product Features

Available in a wide range of colors and glosses

Excellent Exterior durability
Good chemical resistance

Technical Properties

Test Method	Value
	Matte Gray UD Smooth
ASTM D-523 ASTM D-3359 ASTM D-3363 ASTM D-2794	25 - 35 @ 60° 100% (5B Pass) 2H Pencil (Eagle) 100 Inlbs. Direct
ASTM D-522	1/8" Mandrel - No Cracking
ASTM B-117	1000 Hrs. Pass <1/8" Scribe Creep - No Blisters
ASTM D-1735	1000 Hrs. Pass <1/16" Scribe Creep - No Blisters
	ASTM D-523 ASTM D-3359 ASTM D-3363 ASTM D-2794 ASTM D-522 ASTM B-117

Film Properties were determined using 2.5 - 3.5 mils powder film over iron phosphated, chrome rinse pretreated, 22 gauge, unpolished cold rolled steel test panels.

Application Data

Application Type: Electrostatic Spray

Recommended Bake: 10 Minutes at 400 °F Metal Temperature

See Cure Curve PCT-001

Specific Gravity: $1.55 \pm .05$

Theoretical Coverage: 124 Sq. Ft. per pound at 1.0 mil

Shelf Life from Date of

Manufacture (@40-60% RH):

80 °F Maximum - 12 Months

PPG recommends that all material be used in FIFO order (first in - first out).

Materials that exceed the recommended shelf life should be tested prior to use.
